FQ2 Comment

The Service is working through a stock programme which will upgrade all parking terminals to enable multi payment options (cash and Chip & PIN). At this point, 66 terminals out of 92 have been upgraded. The traffic system for the upgraded terminals is excellent and allows forensic review of the various payment modes. For FQ1 & FQ2 combined, the system shows payment totalling £573k for the upgraded terminals. The remaining 28 cash only income is not shown on this system but may include an additional "payment in process" element (a lag on the income being added to the system).

FQ2 Comment

There is individual tracking and monitoring in place on SEEMIS in schools for care experienced children and young people. In addition to this, the Principal Teacher for care experienced children and young people monitors the information in SEEMIS and has subsequent conversations with staff in schools to ensure care experienced children and young people are receiving all the support they need to achieve and that the staff in schools have strategies in place to help the child remain engaged with their education attainment and achievement. Often the care experienced health and wellbeing officer is used to provide extra support for the child and the family

electricians and one apprentice, are at present able to "keep pace" with new service requests. This however indicates the issue related to "out of date" columns, cabling and control gear generally. The completion of the project in 2022/23, delayed due to Covid, will further reduce faults due to luminaire failures and it is anticipated that the Street lighting Capital replacement programme 22/23 will start to address the issue of ageing asset. It may however, take several years of further investment before this has an appreciable effect on the frequency of reactive repair requests.
